Thirty single-engine low-wing monoplanes (in-line engine, barrel projecting over cockpit to the rear) were parked in front of the closed hangars of the DOEBERITZ (N 53/Z 65) airfield. A U-2 biplane took off shortly after 2 p.m. and headed west. There was no other flying although the weather was good. Large quantities of coal were deposited beside the spur track.

Comment:

The described aircraft obviously is an IL-2 or IL-10 ground attack plane. The transfer of a ground attack regiment to DOEBERITZ is thus confirmed. According to observed shipments and the evaluation of motor vehicle numbers, the regiment came from FINSBERG ALDE.
